

Cloud Is Impacting Every Industry, Every Geography

- The business demands cloud for speed and agility
- Cloud will change how IT operates, delivers services
- Public and private clouds will need to work together
- Familiar industry approaches won't work

Business Cycles Are Faster than Ever Before

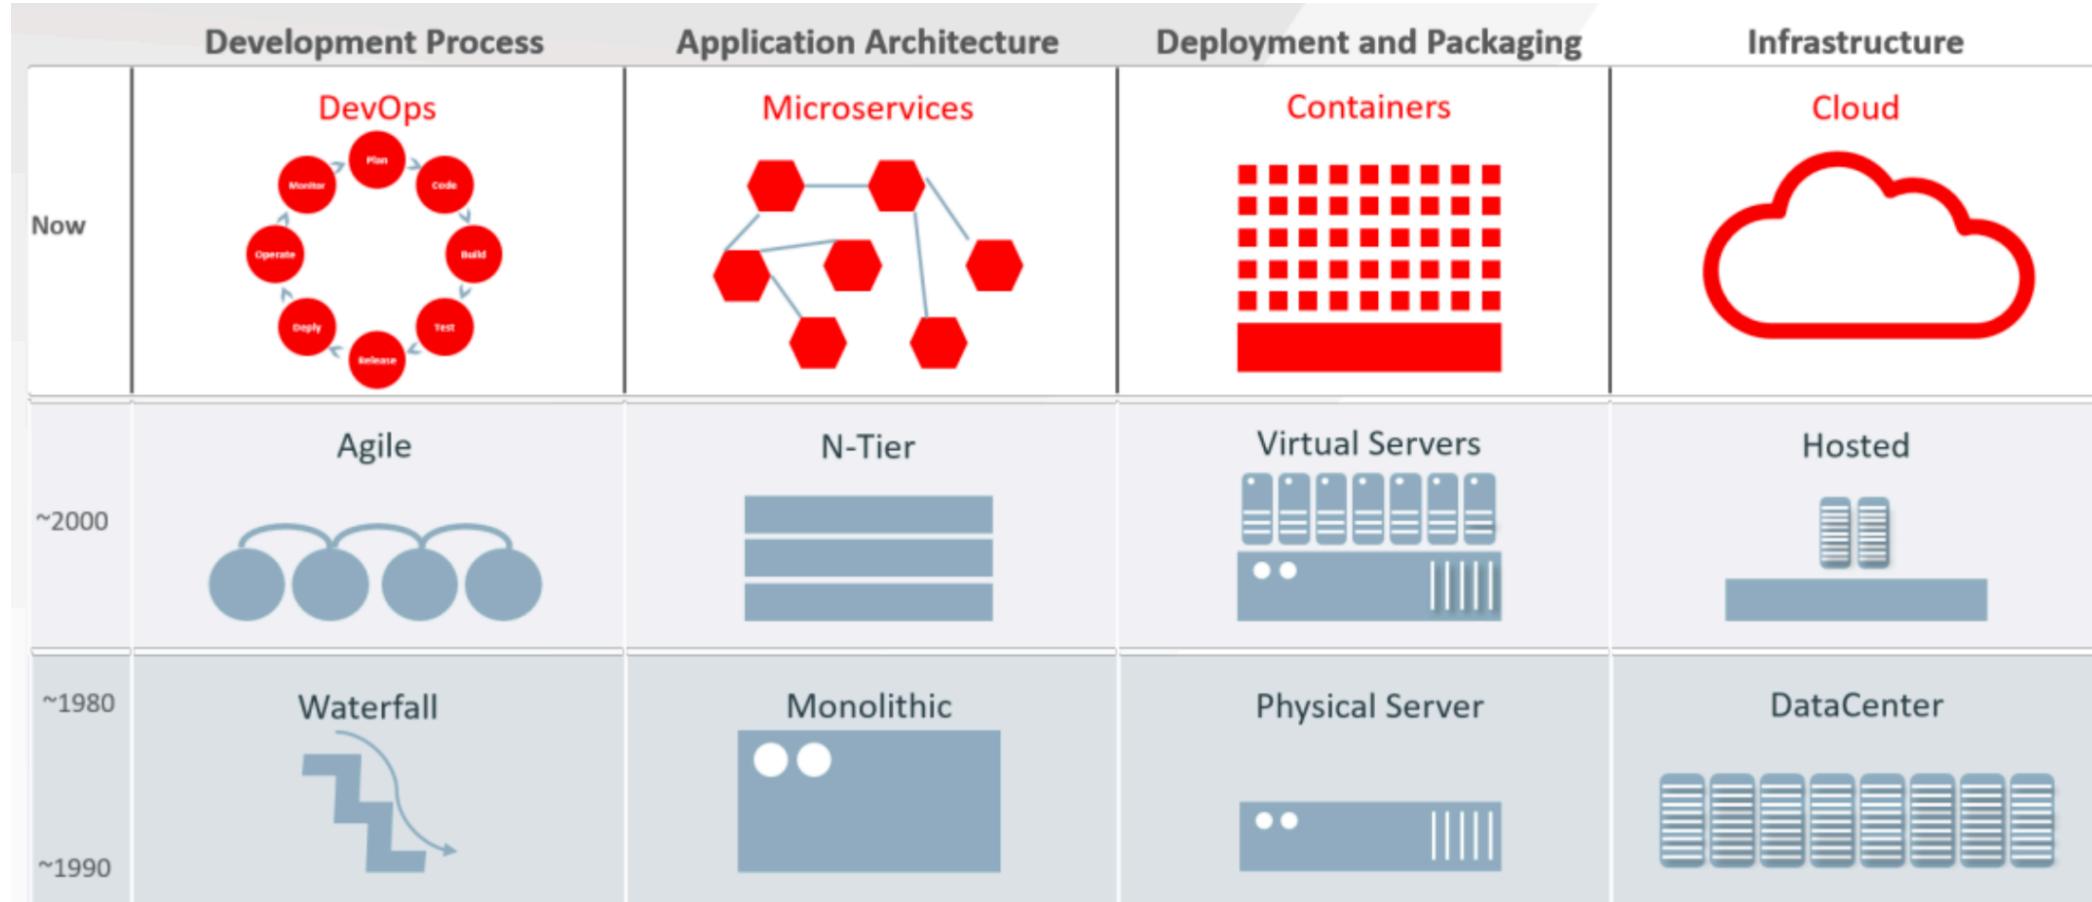

What Do Today's Winners Have in Common?

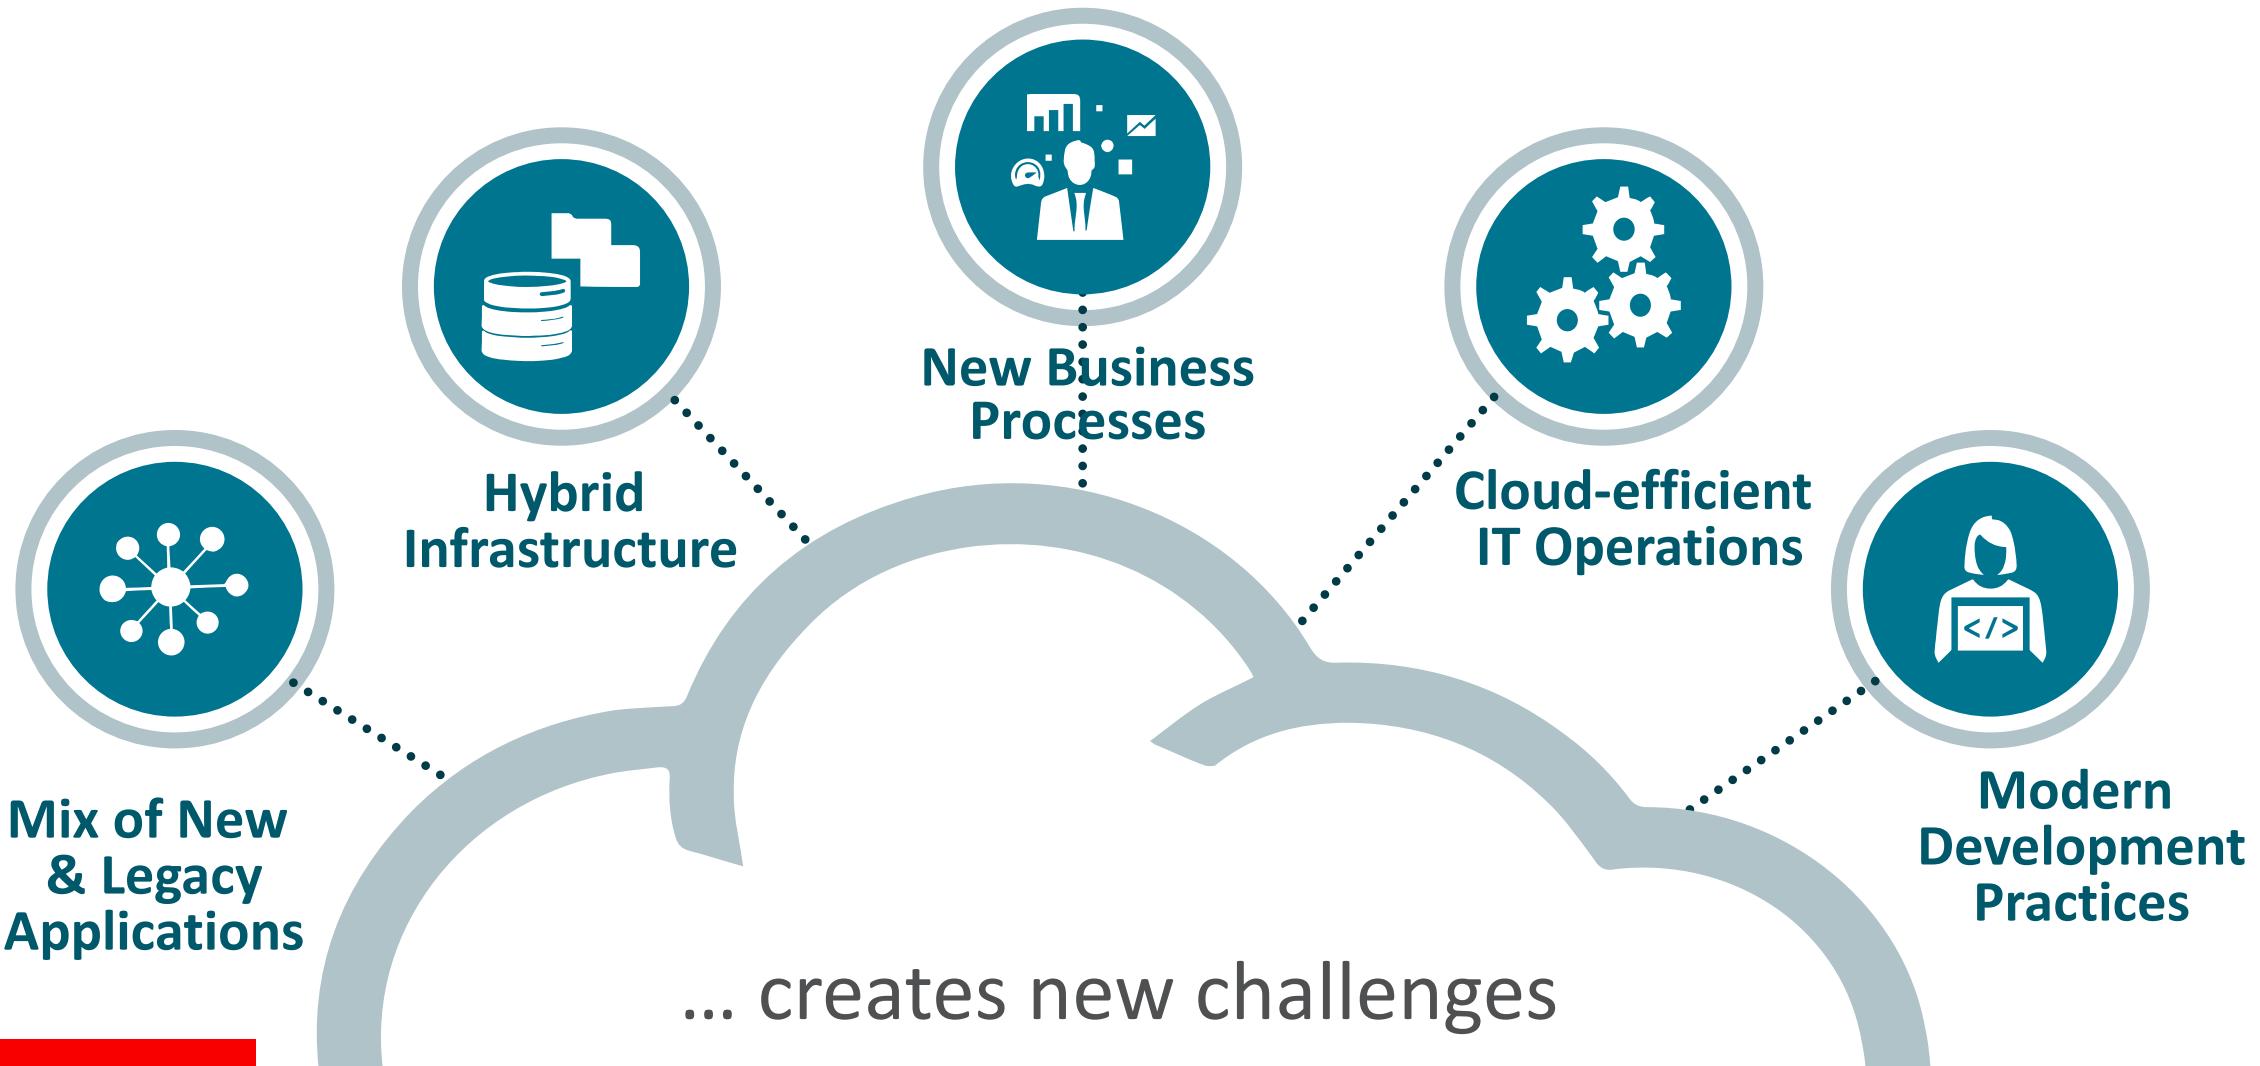

Speed of Business Innovation, Enabled by Cloud

EVOLUTION OF DEVELOPMENT AND DEPLOYMENT

Moving to the Cloud

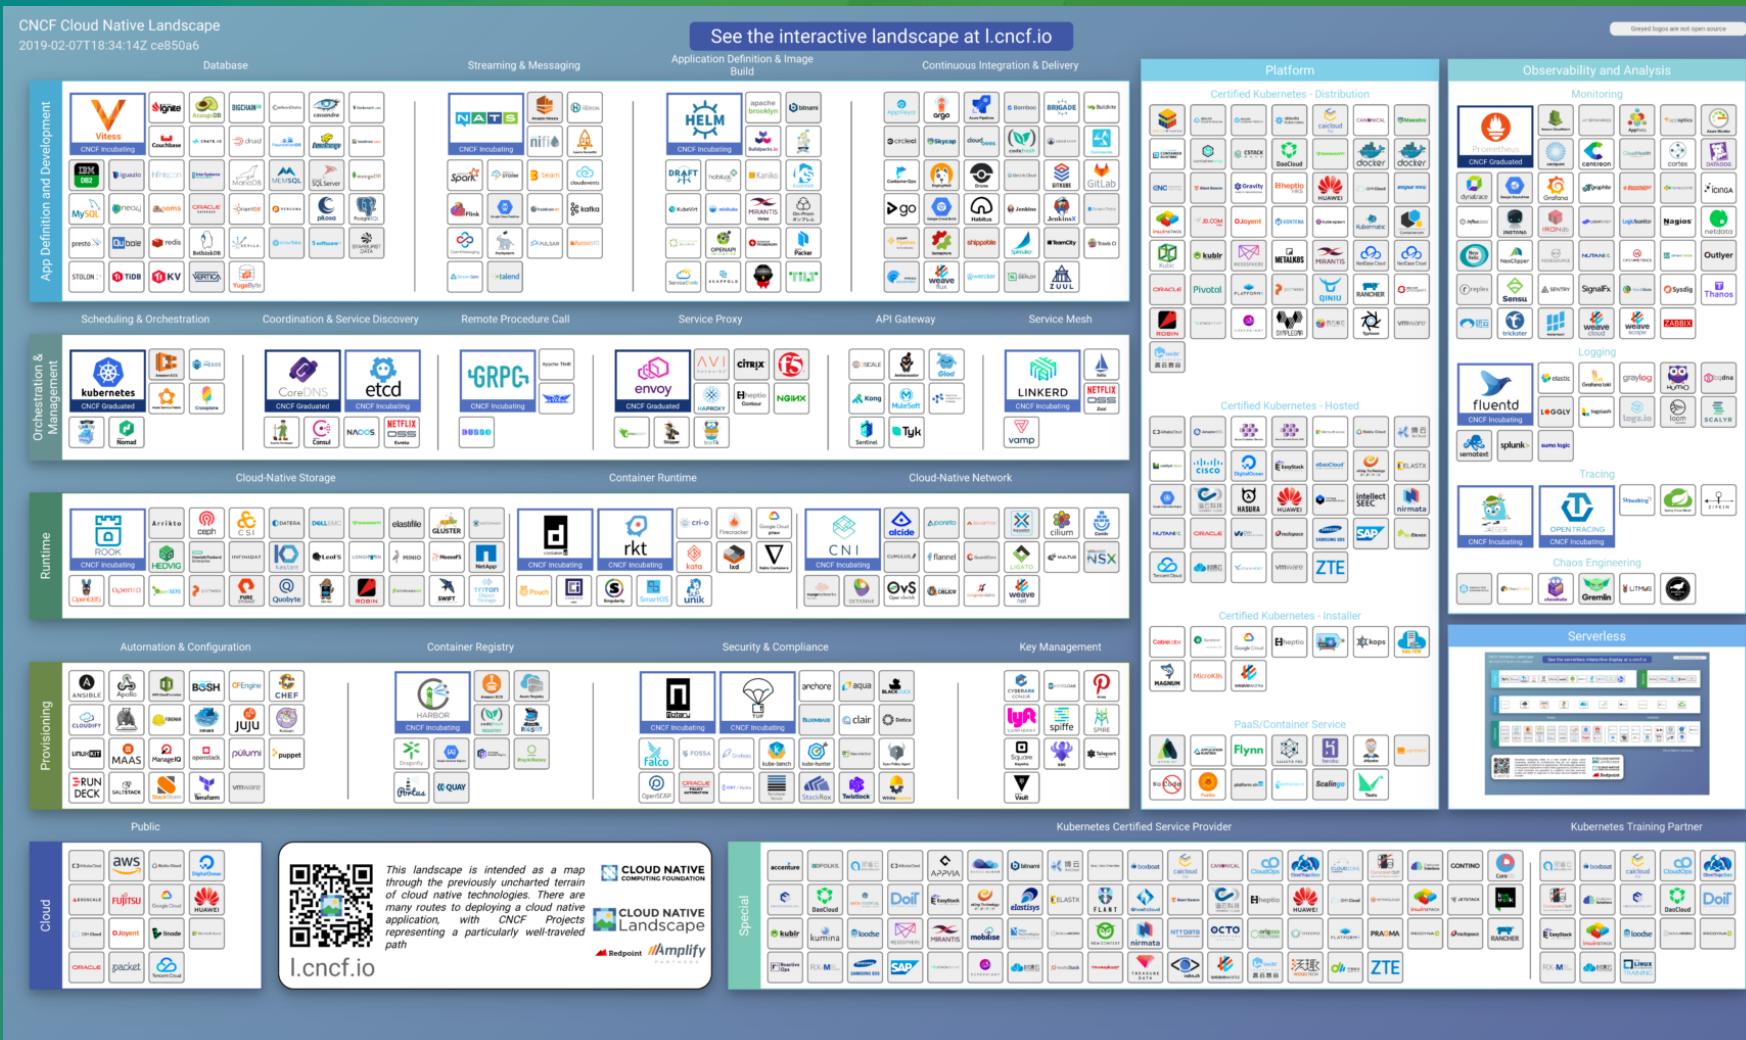

Cloud Native Environment

A Better Alternative

Cloud Native Can Deliver Benefits

- Faster time to market, better agility
- Modern
- Cost savings
- Easier application maintenance
- Vendor independence

A Complicated, Rapidly Evolving Technology Landscape

Simple, Agile & Secure

One simple bundle with all the tools and features you need on-premises or in the cloud

Oracle Cloud Infrastructure

Management

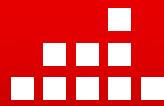

Compilers

Cloud Management

Clustering

Containers

Diagnostic Tools

Hypervisor

Security

Flexible support options
optimized for Oracle and non-
Oracle environments

Modern cloud features like
Docker and OpenStack in
your data center

Easily migrate to Oracle Public
Cloud when ready

Enterprise Class Oracle Linux Premier Support

24x7

support

ONE

engineering
team

140+

countries

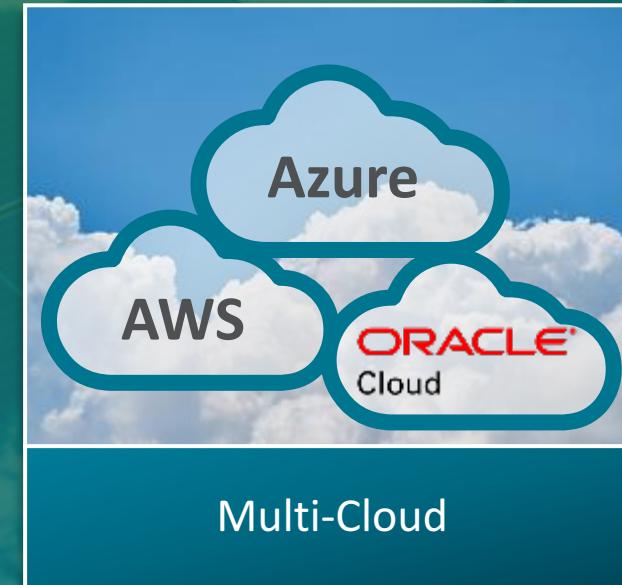

- Collaborative Support Tickets Across All Oracle Products
- Full support and code fixes to end users
 - If a customer has an issue, we fix it

With Multiple Deployment Options

On-Premises Private Clouds

- 
- Simplify and standardize on-premises
 - Reduce costs and operational effort
 - Enhance security and performance

- 
- Adopt true open source
 - Innovate Faster

Optimize, Secure, Evolve & Save Today
